

Radiometric Control Witness Form & Diagrams

Project Name: INSERT PROJECT NAME

Date: [INSERT DATE]

Project Code: INSERT PROJECT CODE

	Details	Notes/Comments	Justification/Explanation
Survey Overview			
Date & Time:		Date and time of survey. Time is important	
General Survey Conditions:		Brief description of survey conditions (inc., live and recent weather, visibility, cloud cover, air quality.	
No. of Points		Number of points being taken. Distribution of control and check points	
Equipment:			
Make / Model:		Make/model of radiometric equipment used.	
Specifications:	°C	Critical specifications only (inc., temp. range, accuracy, sensitivity, recorded metrics, spot ratio)	
Additional Equipment		Any additional equipment needed for the execution of the survey.	
Survey Team:			
Planned / Set Up by:		Lead individual responsible for survey planning	
Observed by:		The individual taking the point observations. This should remain consistent during the survey.	

Computed by:		The team member responsible for the processing of the observations	
Environmental Conditions:			
Air Temperature (AT)	°C		
Reflected Temperature (RT)	°C		
Relative Humidity (RH)	Air Temp.: RH:		
Emissivity:			
Observed Materials & Emissivities		Listed the materials observed and their emissivities. This includes any values determined outside of this survey.	
Observation Method		Brief description of how emissivity was observed and calculated (inc., no. of observations and redundancy)	
Notes:			
General Notes:
